

Friends

Our attached calendar gives you an idea of your prayers that has been answered and the fruit of your investment in our ministry. **The last two months has been challenging** but exciting as we have seen much fruit from our missions on the islands and other leadership development responsibilities.

We value you so much.

Denise and I are off to Ethiopia from the 10-19 May. This will be my third visit and Denise' first. We will continue to invest in the leaders God has raised in this nation through the work of YFC. The team has grown and the work has become more challenging. **We are going in to strengthen their hands and to sharpen their skills** as they serve their nation.

For ten days, from the 21 May **we are partnering with Operation Smile SA, who is bringing a medical team of 50 practitioners to Madagascar.** They will consist of plastic surgeons, anesthesiologists, pediatricians, dentists, child life therapists, nurses and speech therapists.

The success of this mission is very dependant on the translators. Operation Smile has just sent us the key medical words and phrases that will be used. A booklet has been translated into French and Malagasy which will be given to patients. In Madagascar we are in the process of identifying the ten best YFC translators to serve with this team.

As you work through the calendar, please pray for Operation Smile SA, the coordinators, the medical practitioners, the working relationships, the translators, the cooperation with local authorities, the resources needed and most of all **for God's shining light and**

transforming grace to visit all the Malagasies he brings our way.

On the island of Rodrigues **we are trusting God for the resources to develop Azie Dickson** and for people to support him financially. My recent visit to the island has again confirmed God's working in this pioneering endeavour. Kids are being reached and already volunteers are coming forth to serve.

Please make us a daily focus in your prayers and take the liberty to pass on the calendar to those who feel called to pray for missions.

Thank you for serving with us

David and Denise Kadalie

Blessings,

David Kadalie
